Opinion

Ladies & Gentlemen: We have reached the end of another year. What do we have to show for it? We have fought amongst ourselves. We have divided, or allowed our Country to be divided. We have permitted our own American Values to be used against us. We have lost our direction, sense of patriotism and our faith. We, the owners of this Country, have acquiesced to a web of illogic which defames our heritage. Shame on us!

So what does the 2016 political horizon look like?

First, what is on the docket when Congress reconvenes in January and the Emperor returns from his vacation? Fair to say, we have already seen an unprecedented number of Executive Actions and new regulations. 545,875 pages of 'red tape' and 2242 new regulations to take effect in 2016. The Executive Actions (Orders, Proclamations, Memos of Intention, etc.) have gone virtually unchallenged by Legislative and Judicial Branches. Obama has marginalized Congress – which is another way of saying “ignored” – and done whatever with impunity. In his last year in office, I expect he will turn up the volume & tempo of these commands.

Second, the emperor's signature health care law (ObamaCare) will morph again. Premiums will increase, failure to comply will extract higher penalties. The Cadillac Tax and corporate taxes will be postponed for two years (which puts these out of his reach). Meanwhile the conservatives contemplate a vote on a “roll-back” of ObamaCare early in January.

Third, the Feds allegedly will host raids on illegal alien households for deportation. The Dems are in an uproar. I think it is a ploy. We'll see.

Fourth, Omar will continue to support the Syrian Refugee Resettlement plan. 10,000 Syrians? The discovery of Obama's UPS Night Flights of refugees already in action will make your blood boil. The fact that Gov. Chris Christie says Washington has already imported refugees and located them in his state – without telling him should make blood shoot out of your eyes (Glenn Beck's famous hyperbole). At the same time, the whisper-word is another Central American “surge” in scheduled (?) to descend on us at the same time. Omar has and continues to support this. He now has the funding from the latest Omnibus Bill to do this.

Fifth, Washington will re-hash the logistics and ethics of investigations of refugee and immigrant social media accounts. Nothing will happen, but it will suck money from the till and run up the clock.

Sixth, Washington will continue to thrash about arguing how to remedy the Visa Program problems. Nothing will happen (at least in geologic time).

Seventh, you can bet your nickel on revisiting federal gun control. Look for the congressional “end-around”. It won't work, but be on the watch.

Eighth, Abortions and Planned Parenthood will surface again. I think we can objectively discuss the idea of aborting human life, fetal body parts (not just tissues), sales of said

body parts for profit – because there is no objective rebuttal of these activities. That taxpayers of all religious beliefs are forcibly paying for this is unresolved and repugnant to many.

Ninth, watch what happens to the National Debt!

I'm sure there are more. Today's "Sunday Morning Futures" ran the mirror image of my list.

What we see in 2016 and what we demand are two different realities:

1. Investigation & Prosecution of Hillary Clinton's illegal and unethical behavior as Sec. of State.
2. Nullification of parts of the Vampire Omnibus Bill
3. Audit the Federal Reserve
4. Defund Department of Housing, Urban Development (HUD)
5. Repeat investigation of the Veterans Administration.
6. Progress in Cyber Security
7. Ouster of Mitch McConnell
8. Impeachment of DHS Secretary, Jeh Johnson.
9. Impeachment of IRS Director, John Koskinen
10. Impeachment of President Barack Obama

What say you?

(I don't think so. We have enough problems with the "low-information voter" that is OVER 21.
